
CEO TOOLS: NEW Tools Added for 2010 at www.ceotools.com

ALL 26 Website CEO Tools on a CD! NEW for 2010

Now you can order a new CD that contains all 26 tools listed in this New Tools Catalog, fully updated for 2010, at a total savings of over 35%. The CD with 26 tools net price is \$749.00 (including S&H in the continental US) versus total list price of \$1,160.20 for all the tools individually. To see the complete 26-tool list and price comparison, please click the PDF below. To order the CD, click "CONTACT US" above and leave an email for Kraig with your information: name, company name, complete address (no PO Boxes), phone, and email address. Kraig will reply with payment instructions after accepting your order. The same user license terms and conditions apply to this complete single-user Toolchest as with any tool. This CD is a great way to save while implementing any number of the business-improving CEO Tools!

Manage Sales Dashboard - NEW for 2010

NEW for 2010: Manage Sales Dashboard is THE TOOL for managing "What Causes Sales!" It's also a customizable 12-chart dashboard, using Trailing-52-Week Charts, for many applications. There are 12 charts all on one page, each row of three charts relating logically to each other. So, you can correlate "What Causes Sales" as the driver for Bookings and then relate that to Billings. Do this by division or sales channel or by salesperson on each of the four rows of three T52W charts. Your choice! Customize to suit your sales management style.

Order Excel version ready-to-use = \$58.00
